### Do You Suffer from Eyestrain?

Eyestrain makes itself manifest in several ways: Headache—aversion to fine work—blurring of print, after reading a short time—are indications that glasses are needed.

Our Optical department is capable of correcting the most difficult cases. We will examine your eyes free of charge, and will only prescribe glasses when we know they will benefit.

GENERAL MERCHANTS - RED DEER.

### Insurgents in Red Deer.

On Friday last the entire force of the insurgents town for Henry Legitimate opposed to the Ruth-erford administration, with one exception, met in secret conclave here, the one exception being Mr. McLean, of Lethbridge district, who was delayed owing to the illness of his son. The business of the meeting was kept a profound secret, but enough information leaked out to lead us to infer the meeting was of an organization to fight the Government in every constituency thrown open, to perfect their plans for an aggressive campaign, and the selection of a leader, who, we think, will be W. H. Cushing, ex-Minister of Public Works.

On Saturday the Board of Trade took the visitors in motor cars to see the sights of the town, Messrs. Carscadden, Persons, Collison and Gaetz lending their cars for this purpose.

### Our Loss—Calgary's Gain

Ex-Mayor W. J. Botterill was in town Saturday and represents Calgary a seething hive of industry. Mr. Botterill's removal to Calgary with his family is a great loss to Red Deer. He has been a resident of this town for many years and was always known as one of our most straightforward and prominent citizens, and after several years work on the council board was elected to fill the highest position in the gift of the people. His word was as good as his bond and although tens of thousands of dollars passed through his hands for the large firms he represented, he was never asked to give and never failed to look after the best interests of those he served. Engaged as he is in the real estate business in Calgary, he has adopted a profession eminently fitted for his best efforts, as he can be relied on at all times to do what he says he will, without fear or favor and is strictly honorable in all his dealings. The real estate firm of which he is a member is known as Latimer, Botterill & Hill and they are located opposite the Royal Hotel. Councillor Harry B. Hill will also be sadly missed in Red Deer. He was one of our prominent merchants for several years and was known as "The Deacon" by the boys owing to his strict honesty in business dealings. Mr. Latimer is known as one of the straightest men in the West. This firm, therefore, will, we predict, make a name for itself in the near future, and we notice by the Calgary Herald of the 28th that, as a start, they took a whole page to advertise their sub-division, "Riverside."

Mr. Botterill, who was master of Kenilworth Lodge, A.F. & A.M., was given a farewell supper a short time ago, when a high tribute to his worth as a citizen was extended him by several speakers, who all expressed regret at his departure for Calgary. We sincerely hope the time will come when both Mr. Botterill and Mr. Hill will return to Red Deer to make their home here, as we can ill afford to lose such good citizens.

### Football.

At an executive meeting of the Town League, held at Snell's jewelry store on Monday night last, it was decided that any player wishing to transfer to the newly formed Town team must give due notice of doing so to his executive and it would then be considered by committee, and if a unanimous vote was passed, he would be released.

## "JANE" THE NEW STATION.

A Laugh from Beginning to End.

The Red Deer Dramatic Society are to be congratulated on the success of their second performance, the laughable farce in three acts, entitled "Jane," which was put on at the Lyric on Thursday evening last. Every seat on the plan was sold before six o'clock and seating room was at a premium before the curtain rose.

For weeks the Dramatic Society have been practicing hard under the instruction of J. W. Hey, and they show progress. Although "Facing The Music" was splendidly rendered, "Jane" was better, a little better all along the line. The ladies' costumes were rich and well selected and the gentlemen's dresses very appropriate. The make-up of the different characters was fully equal to any professional company and was slightly better than a great many touring this province. This work was under the direct supervision of stage manager Hey and was excellently done.

Miss Florence Cottingham, as Jane, Shackleton's housemaid, took her part exceptionally well. Although she had some stage experience, we doubt if she ever appeared to so good advantage as she did Thursday night. Mrs. Cassels, as Mrs. Chadwick, an elderly party, Lucy Norton's aunt, was also good and deserving of special mention. Mrs. J. G. Norquay, as Lucy Norton, was slightly timid, as of course she should be, but she looked sweet and took her part well. Miss M. E. Hives, as Mrs. Pixton, Jane's cousin, was a matron of fierce demenor, and she had a difficult part to perform which she carried out well. Pixton, her husband, in the person of Master Charles Carwell, trembled at the sound of her voice, but was as brave as a lion when ordered to speak to other people. A young member of the troupe he did well. J. C. Brumpton, as Claude, Shackleton's page boy, with an amazing red head, was ready at all times to kick and be kicked and enjoyed the fun immensely. L.M. Gaetz, as William Tipton, Shackleton's valet, was one of the central figures and a source of much mirth in the many scenes of the play. He was particularly entertaining and took his part like a star. H.V. French, as Mr. Keshaw, Shackleton's trustee, was a pleasant surprise to many, as a new resident of the town and a member of the News staff, he is a credit to this great moral journal. J. W. Hey, as Charles Shackleton, who was always suffering from impecuniosity, was a study. With the whole load of the play upon his shoulders, he carried off his part to perfection. Everything ran as smoothly as though an old, well balanced troupe had the performance in hand. For this Mr. Hey deserves the highest credit. The whole play was well balanced and there were no weak spots. No criticism can be offered.

The management wish to thank Messrs. Best Bros. for the loan of furniture, pictures and carpets. The Western General Electric Co. for electric lights and fixtures; The W. E. Lord Co. for carpets and curtains; R. C. Brumpton for curtains, china and glassware and also for use of hall for rehearsal. H. J. Snell for china and glassware; J. Wright for drapery; H.H. Humber for glassware and sundries; Mrs. Cottingham for glass and silverware; Mrs. H. L. Gaetz, silverware; Mrs. Hey for curtains, table linen and silverware; Mr. Wilson, of the Lyric, for assistance in many ways, and "Jane," "Charley Shackleton" and "Mr. Keshaw" wish especially to thank Mr. Rutter, of the Alberta, for the kind donations to the luncheon put on in Act 2.

The play will be repeated on Thursday evening, May 12th, for the benefit of the baseball-hockey club.

### Baseball Booming.

Things are fast rounding into shape for baseball this season, and all indications point to the fact that Red Deer will be able to put up a faster article of ball than has been played for some years past. Losses, who pitched one game here last year, will be with the team, and a number of new men with good records behind them have decided to make Red Deer their home. An attempt will be made to arrange a game here on Arbor Day with Olds or Wetaskiwin, and a team will be sent to Blackfalds tournament on May 24th. New uniforms will be purchased this year, and it is probable the team will make an attempt to capture the Brewery Cup, amateur championship trophy of Alberta, which is now held by the Calgary Victorians.

### Work Commenced Yesterday.

Work on the new \$20,000 station commenced yesterday. Excavation will be rushed at once, Hewson & Sons having the contract for this branch. The station will be after the pattern of that at Lethbridge, and will be as modern as possible. The main entrance will be facing Ross Avenue, and will be just south of the present station, which will be used as a freight shed when the new station is completed. Local help will be utilized as much as possible by McCormick & Co., the contractors.

### The Alberta Central.

The route map of the eastern section of the Alberta Central railway, for 150 miles, was passed by the Minister of Railways Friday last. Work will start on the western branch of the railway in a few weeks.

### The Gun Club.

The annual meeting of the Red Deer Gun Club was held on Wednesday evening last in Mr. Botsford's office. There was a good attendance of members. The secretary's books showed the club to be in good standing. The following officers were elected for the present year: Patron, E. Michener, M.P.P.; Hon. President, Capt. Cottingham; President, R. L. Gaetz; Vice Pres., Dr. Plaxton; Secretary, Treasurer, G. B. Parker; Executive Committee, A. T. Stephenson, R. R. Randall and J. A. Carwell; Field Captain, A. T. Stephenson; Auditors, J. Norquay and W. Huskins.

**FIRST SHOOT.**  
The first regular shoot took place on Monday evening last, when the following scores were made: Plaxton, 19; R. L. Gaetz, 15; Ware, 12; Carwell, 12; Cottingham, 9; Plaxton, Gaetz and Ware taking the buttons in first class. Second class: Parker, 16; Huskins, 14; Crocker, 14; these three taking the buttons in order. The club is now off to a good start, and we hope to see a good turn out next Monday evening at 7 o'clock.

### CHILDEBERT, PURE BRED STALLION.

This pure bred Percheron stallion, who has proved himself to be a getter of A1 stock, will stand for service at the Springville farm, Sec. 30, Tp. 37, R. 28, on Monday and Tuesday each week, Thursday, Friday and Saturday at Hewson's barn, Red Deer. As we do not intend to road this stallion this season, we are putting the fee to insure at the low price of \$10.00.

### FARMERS! ATTENTION, PLEASE

Your small mares cannot raise a three hundred dollar colt if bred to a drught stallion, but she will if bred to Tilden's trotting stallion "Zonvert." The sporting men, the business men, the doctors, ministers and lawyers, if they live four years longer in Sunny Alberta, will all be in the market for a fine driving horse. He wise and have something ready to supply the demand. "Zonvert" will stand every Saturday during the present season at Hewson & Son's barn in Red Deer, balance of time at Meadow Park farm, four miles south of Banff Lake. Red Deer, May 3, L.F.

**THE VAN SLYKE BREAKING PLOW.**  
The Van Slyke Breaking Plow Co. will commence the manufacture of what is known as "The Van Slyke Breaking Plow" in Red Deer. An electric plant is being installed, which will run day and night to satisfy the increasing demand. There are now considerably over one hundred plows ordered, comprised of four horse, six horse and steam outfits. These are distributed in many towns, Wetaskiwin, Stettler, Didsbury, Penhold, Oids, Innisfail and Lacombe.  
The Advantages of this Sully Plow are:  
1.-Break brushland, prairie and timothy. Furrows never turn back or kink.  
2.-The draft of the plow is fully one-third less than other plows on the market.  
3.-Guaranteed to scour gumbo land.  
4.-It works well in stony land by change in coulters.  
5.-Much more durable than other plows as it is constructed of solid steel.  
Farmers will not be consulting their own interests if they do not look into this proposition before purchasing elsewhere.

**REAPING WHAT WE HAVE SOWN.**  
(Toronto Mail and Empire.)  
Parliament has discussed within the past week several transactions which illustrate the system of which Sir Wilfrid Laurier is the patron, if not the parent. One originated in the Department of the Interior. A band of Indians possessed near Winnipeg a reserve upon which politicians of the Frank Oliver School of thought cast covetous eyes. The land was good. If acquired it could be sold at a very considerable profit. To the department the project of transferring the property was mooted, and the idea was well received. Shortly after the Indians were rounded up and persuaded to allow the reserve to be disposed of. A sudden sale by auction, in the dead of winter, took place, and the land passed from the Indians at various prices, the average being \$5 per acre. The new owners are now selling at \$50. There are 21,000 acres involved. The politicians are

**LORD KITCHENER'S VISIT**  
Some people have wondered why Lord Kitchener did not visit Canada on his recent trip. They have gone so far as to say that we have been snubbed by the great general. Well perhaps we have. But let it be remembered that Great Britain's greatest general is not a man to shove himself in where he is not wanted. He was not invited to visit Canada by the Liberal government of this country. He did not feel he was wanted by those Liberals who so viciously followed Lord Dundonald and eventually drove him from the country. This general was one of the best fighters under General Buller, and was the first soldier to enter Ladysmith, yet he was insulted by the Separatists from the day he reached these shores until he left amid the cheers of the loyal population. That Lord Kitchener is well enough informed to take care not to visit Canada unless invited is very clear. That the Laurier Government did not invite him is also certain. Possibly he has done too much for the protection and for the upbuilding of the British Empire to be welcome at Ottawa under existing circumstances. But Lord Kitchener was cordially received in Australia and the United States. They have no prejudice against a British officer there.

One of the interesting pieces of information given out during the naval debate came from Finance Minister Fielding, and was to the effect that our cruisers are to be fitted with wireless telegraphy. This equipment is to enable the naval officers, when at sea to communicate with Ottawa for information touching our relations towards a nation that may be in arms against the Empire. When one of our ships encounters a vessel of the enemy she is to wire at once asking for instructions. If we have decided to be neutral, the captain on receiving such information will refrain from attacking, or from defending himself against the opposing vessel. If, on the other hand Sir Wilfrid Laurier has kindly consented to permit us to stand by the British Empire, the captain—well, if the ship is one of Minister Brodeur's productions, he will put on steam and get away as fast as possible. We ought to be pleased that wireless telegraphy has been discovered.—Toronto Mail.

In view of the statements recently made that Germany was driving commerce from the seas, it may be interesting to mention that in 1908 Britain built ships having a combined tonnage of 926,000 tons, to Germany's 207,000 tons; and in 1909, 991,000 tons to Germany's 128,000 tons. This does not look much like a loss of supremacy.

**REAPING WHAT WE HAVE SOWN.**  
(Toronto Mail and Empire.)  
Parliament has discussed within the past week several transactions which illustrate the system of which Sir Wilfrid Laurier is the patron, if not the parent. One originated in the Department of the Interior. A band of Indians possessed near Winnipeg a reserve upon which politicians of the Frank Oliver School of thought cast covetous eyes. The land was good. If acquired it could be sold at a very considerable profit. To the department the project of transferring the property was mooted, and the idea was well received. There are 21,000 acres involved. The politicians are

therefore making in the neighborhood of \$900,000 out of the deal.  
Another transaction was pronounced upon by Parliament on Thursday. In the middle of the last general election the Government purchased a wharf in Richibucto, known as the sawdust wharf. The price paid for it was \$5,000. The vendor had just bought the wharf from the owner for \$700. There was therefore a rake-off of \$4,300, and, while \$300 went to the middleman, the balance, \$4,000, passed to the campaign fund in New Brunswick.  
These operations have but to be mentioned to be understood. Every Liberal member in Parliament voted for them. Every Ontario Liberal stood up and solemnly gave them his endorsement. The vote of each Liberal member was equivalent to a vote by each one of his constituents. Thus every citizen who voted for a Liberal at the last election, and every citizen who will vote for one at the next election, has endorsed this dishonesty and has consented to its continuance. We are getting what we ask for at Ottawa, and we shall always reap what we have sown. Does any responsible citizen really believe that this is the sort of thing we ought to agree to? Do we want more of it? Or should the thing be stopped?

While snow and frost has been common to the eastern and southern states, we have been enjoying fine spring weather.  
Mr. L. Bower, Clearwater, Alberta, has purchased a Palmer grand piano from the Wright Agency. We believe this is the farthest west for a piano in the Red Deer district.

"Jane" will be reproduced Thursday of next week on behalf of the hockey and baseball clubs. The hockey club is behind in its finances and hopes by this means to get even. Secure seats early.  
Anyone wanting currant bushes or plants of any kind should patronize home industry. Joseph Cole advertises some fine stock for sale, and Mr. Cole's goods generally give results. Home-grown bushes are always the best.

Mr. F. W. Hobson, boiler inspector for Red Deer district, has been moved to the head office of the Boiler Inspection branch, Department of Public Works in the Government buildings, Edmonton, where he will devote himself chiefly to the inside work. Mr. W. D. Watson, of Bankhead, takes up Mr. Hobson's work here.

**Lesterville**  
Mr. Edward Wilton has returned to his homestead, having been absent all winter.  
Mr. and Mrs. Rose Ordons, of Red Deer, have come out here to live.  
The sincere sympathy of the community is extended to Mr. Harvey Wood, and it is hoped he will soon be able to return among us again from the hospital.  
Paul Frodeen, who left the country for good, could not find any place as good as Alberta, so came back to his own particular corner of it.  
Miss Grace Hanson, Evarts, is visiting with Mrs. Taylor for a time.  
Mr. C. Gallott was out here the early part of last week.  
Mr. Angus Martin was visiting in Red Deer last week.

WEDNESDAY, MAY 4th, 1910.

The meeting of the Insurgents here on Friday last would lead one to infer that they, as a body, are extremely active. That they choose Red Deer as a meeting place was complimentary to us, they wanting, no doubt, to get away from grafters, hoodlums, promoters, boosters and the like. Red Deer always stands ready with open arms to welcome those who stand for good, clean government; for those who are fighting against unscrupulous politicians and those who are standing by the people for honest politics. Let them all come; they are welcome.

#### EDITORIAL NOTES.

One man and a trunk railway is the new name for the A. & G. W. railway.

Minty declined to answer when cornered at the meeting of the commission at Winnipeg last week. He resigned his position

in the Company when he heard that he was to appear before the Commission, and he handed over all the papers to Clarke, president of the company, who skipped across the line with them, thus preventing the judges obtaining desired information. It is our candid opinion that if these railway promoters got their just deserts they would be behind iron bars for the rest of their natural lives.

#### U. F. A., Eckville Branch.

A meeting of the above was held in the schoolhouse on Friday April 29th. In the chair, C. Kaspar, Pres., A. Eckford, Vice-Pres., acting as Sec.-Treas. in place of W. Gaskrath, who had the misfortune to have his house burned last week and was therefore unable to be present. The attendance was not what might have been expected, owing, no doubt, to the fact that no notices were sent out. Several members handed in subscriptions for the "Grain Growers' Guide," the official paper. The question of the Hog Plant was discussed, the majority being against the terms

of the agreement. It was finally decided that there were not enough hogs raised in the district, nor intended to be, to go into the matter further.

The secretary was instructed to write to headquarters re binder twine.

R. Bruynseraede sent in a quotation on barbed wire to members, viz., 80 rod wire, \$2.95 per reel; heavy wire, \$4.35 per 100 lbs., at Eckville.

C. Moon reported 4 beef steers for sale; J. Bernard, about 200 bushels of feed oats; J. Koski, 1 milk cow.

The meeting then adjourned. Next meeting, Friday, May 27th, in the schoolhouse, at 8 o'clock. The secretary was instructed to see that proper notices were posted and, if possible, inserted in the local papers. All farmers are invited to attend.

#### Speaks Well of the New Plow

Wherever the new breaking plow manufactured by the Van Slyke Plow Company is tried it gives satisfaction. The following letter speaks for itself:

Calgary, Alta, April 28  
Dr. J. W. Rowntree, President  
Van Slyke Plow Company, Red Deer, Alta.

Dear Sir:—Referring to the demonstration which was given by you of your breaking plow, a few days since. I noted the following conditions which recommended it to me very strongly.

The underfoot share, or fin, on the land side, which prepares the next furrow for turning, would leave no possibility of any portion of the next furrow being turned without being out loose from the adjacent sod. There seemed to be very little friction on the share and mould board, it having so small an angle with the land side, and the long sweep of the arms, or rods, back of the mould board seemed to turn the sod with perfect ease and little friction, although turning the sod 20 in. in width, and a depth of not less than 4 in., the draft was so light that it would appear one good team could handle it without very great effort. The coulters, set at an angle and attached the point of the share seemed to be a very good device, as it not only stiffened the coulters and kept it in exact position, but it also cut the sod at an angle, so that it could less easily stand on edge. This assisted turning very much.

Owing to the soil which is in the Irrigation Block, I believe you will find it to your advantage

instead of cutting a furrow 20 in. in width to cut two furrows of 12 in. in width instead. This will have a tendency to join the edges so as to leave flat surface, and where the sod varies in toughness as it does here, it will turn the sod unbroken and leave a surface best suited for cultivating, and would require less disking than if turned in wider furrows and not laid as regular.

If a few details are worked out I consider you have a plow that will eclipse anything that is now on the market and will work a revolution in breaking sod on this western prairie.

With these few suggestions, permit me to say that any assistance I can give you in working out this point I will gladly do at any time, and when a plow turning 12 inch furrows, such as can be evolved from the plow shown in the present demonstration, has been made and is on the market, I want you to put me down for one for use on my own farm.

I understand that this company are going to make such plows for our particular land, but for mixed

land, brush and prairie, the single furrow, cutting from 18 to 24 in., is better.

I remain,

Yours very truly,  
F. W. CRANDALL  
Supt., Development of C. P. R.  
Irrigation and Colonization Dept.

#### Eckville

Mrs. Chas. Snell has left for Red Deer, where she will probably reside for the summer.

The boosters of our Eckville district should not forget that one of our oldest residents, S. Kaupi, recently sold a steer weighing 2470 pounds.

The second meeting of the local branch of the U. F. A. was held last Friday. We hope for a better attendance next meeting (May 27th.)

The Bernard Bros. disposed of some hogs locally at 9 1-2 c. W. Gaskrath, who had his house burned last week, has a new building well under way.

## SPRING-RENOVATING

Is keeping the housekeepers busy these days. It is a sort of stock-taking time in the home, and is almost sure to reveal a need for something new in Furniture, Carpets, Linoleums or Draperies.

Its "Out with the Old and in with the New." It means bidding good-bye to that which has seen its best days, and welcoming the latest ideas.

In making your many changes, kindly remember us. We make a specialty of House-Furnishings in all lines.

Our stock comprises all the latest and best there is to be had.

Drop in the first time you are down town, and have a look through our large show room. We have many pretty things, and it is a pleasure for us to show them.

CHAPTER XI.  
**"MRS. HALLAM!"** cried Kirkwood beneath his breath. The woman ignored his existence. Moving swiftly forward, she dropped to both knees by the side of the boy and caught up one of his hands, clasping it passionately in her own.

"Fred!" she cried, a curious break in her tone. "My little Freddie! Oh, what has happened, dear?"

"Oh, hello, mamma!" grunted that young man, submitting dutifully to her caresses and betraying no overwhelming surprise at her appearance there. Indeed, he seemed more concerned as to what Kirkwood, an older man, would be thinking to see him so endeared and fondled than moved by any other emotion. Kirkwood could see his shoulders, shivering glances and desisted him properly for the time.

But without attending to his response Mrs. Hallam turned to the queen actress of excitement. "I waited until I couldn't wait any longer, Freddie, dear. I had to know, had to come. Excuse me, but I must have said that you had told him to wait outside, that some one had followed you in here and that a body had told him to move on. I didn't know it."

"What's o'clock now?" her son interjected.

"It's about 3, I think. Have you hurt yourself, dear? Oh, why didn't you come home? You must have known I was dying of anxiety!"

"Oh, I say! Can't you see I'm hurt? Had a nasty fall and must've been asleep ever since."

"My precious old boy!"

"Can't you, hardly, I say, don't paw a chap so much. I brought him along and told him to wait, because—well, because I didn't feel so much like shutting myself up in my room, and I thought I'd better see what was going on."

"What's o'clock now?" her son interjected.

## Conclusive Proof

An old farmer was skeptical as to whether people who were ill could really talk to each other over a telephone wire.

One day his wife went to make a visit to a distant friend who had a telephone in her house. During the afternoon the farmer visited a neighbor who also boasted a house telephone and who persuaded the farmer to call up his wife as a little surprise.

Following instructions he put the receiver to his ear and after the usual preliminaries, he shouted:

"Hello, Jane."

"Just then a flash of lightning came with the heat of the summer day struck the wire and he fell sprawling to the floor and he was gone."

"It was wonderful; that was Jane all right."

A schoolboy assigned to prepare an essay on ducks wrote: "The duck is a low, heavy set bird composed mostly of meat and feathers. He is a mighty poor singer, having a hoarse voice, capable of getting into many frogs in his neck. He like the water and carries a top balloon in his stomach to keep him from sinking. The duck has two legs, and they are set so far back on his running gear by that the duck can run pretty fast, missing his body. Some ducks when they get big have curls on their tails, and are called drakes. Drakes don't have to set or hatch, but just loaf, go swimming, and eat. If I was to be a duck I'd rather be a drake."

## Ghastly Retriever

Lord Robert Innes-Ker, at a dinner on Saturday, said people has good luck and some people has bad luck. Now, I remember I was walking along the street with Tom Jellicoe, and he went down one side of it and I went down the other. We had not gone more than half-a-way down when he found a pocket-book with \$50 in it, and I stepped on a woman's dress, and so we got acquainted with my present wife. It was always so, added he, with a sigh: "That Tom Jellicoe was a lucky man in the world, and I never had any luck."

"My friend went rabbit shooting one day with a fine retriever dog. A rabbit suddenly appeared and my friend let go both barrels."

"The dog, that never failed to retrieve a shot, uttered a mournful cry, and returning with its own tail in its mouth held it reproachfully at my friend's feet."

"You see," said a despondent man on Saturday, "some people has good luck and some people has bad luck. ## INVIGORATING TONIC

Miss Ella, Marlow, Wood, of Brownsville, Ont., says: "I was years ago going into a decline. I could hardly drag myself across the floor. I could not sweep the carpet. If I went for a drive, I went for a mile on my wheel. I was too weak to lift it through the gateway, and last time I came in from having a spin I dropped utterly helpless from fatigue. My father would give me no more until I secured PSYCHIC. Knowing it was excellent for decline or weakness, I must say the results are wonderful and people remarked my improvement. Instead of a little, pale, yellow-checked, thin, shaky old lady, I am to-day full of life, ready for a ride, a skating match, or an evening party with anyone, and a few months ago I could not struggle to church, 40 rods from my home. I have never had the slightest cause to fear any return of the disease."

## Presbyterian Theological College Wanted.

May Be Located at Red Deer.

The matter of a Presbyterian Theological college for Alberta was finally disposed of at Wednesday's session of the Synod at Edmonton. An overture introduced in the Synod Tuesday evening by Rev. Mr. Miller of Strathcona, recommending that a theological college be established in connection with the provincial university, was discussed at length and passed unanimously.

Among those who spoke in favor of the overture were W. G. Brown of Red Deer, A. McWilliams of Calgary, and J. S. Short of Calgary.

The overture will be presented at the meeting of the general assembly, to be held in Halifax next June and will be supported by Dr. McQueen of Edmonton, W. Brown, Red Deer, W. D. Reid, superintendent of the Home Missions, and Rev. Mr. Millar of Strathcona.

An overture was introduced by W. G. Brown of Red Deer recommending the establishment of a Presbyterian Ladies' College in the province. Mr. Jamieson of Red Deer came forward with an offer of a free site for the ladies' college on a condition that it be established at Red Deer. The overture was passed by the Synod and will be presented at the general assembly.

Wednesday evening's session was given over to a discussion of Home Missions. Among the speakers of the evening were Rev. W. G. Brown of Red Deer, Dr. McQueen, Rev. W. D. Reid, and others.

## Eckville

This district has suffered considerably from prairie fires this spring, numerous houses and barns, to say nothing of hay, having been destroyed. W. Gaskarth had his house completely gutted, only saving a few small articles. As the prairie was not burning in the vicinity at the time, the cause was probably a spark from the chimney.

Chas. Snell has gone to Red Deer and will probably remain for the summer. Mrs. Snell will join him shortly.

Mr. Carney has been away looking for land in the Custer district.

Mr. and Mrs. Ralph Patterson, of Leslieville, were the guests of Mrs. Eckford last week.

J. H. Killick, of Evarts, was here last Sunday.

## Guarantee Was Not Sufficient

Gov't Will Probably Not Build Packing Plant This Year.

According to Mr. Stevens, the Provincial Live Stock Commissioner, who was in Strathcona last week, the proposed pork packing plant to be established by the Government upon a sufficient supply of hogs guaranteed by the farmers of Alberta, is now inevitably doomed to be held over for another year. This unpleasant termination of the movement recently promoted actively by the executive of the U. F. A. and members of the Department of Agriculture has resulted from a diversity of circumstances, according to Mr. Stevens, who expresses genuine regret that some definite establishment project could not be put into action this year.

In the first place Mr. Stevens says the canny for signatures to the guarantee amongst the farmers did not meet with the success that ought to be expected, but he feels confident that when the matter is gone into more thoroughly with the organized branches of the association there will be found signers in plenty, but this cannot now be before next season. Then again the difficulty that beset the Government on the opening of the Legislature caused a feeling of uneasiness amongst certain sections of farming districts and many that would doubtless have signed the provisional agreement decided to hold off for a while and see what might be seen. Furthermore, Mr. Stevens is of the opinion that the crisis in the Legislature would now preclude any strong possibility of the question being taken up and disposed of satisfactorily in time for operations on a large scale to be started this summer.

There seems no other course open but to wait and perfect, if possible, the plans for pushing the proposition to a definite settlement in 1911. There might in the meantime, advised the Commissioner, be a great deal of attention given the subject by farmers and others concerned, which would perhaps effect a considerable improvement in the plans as outlined, thus paying well for the delay.

## Eye Strain is Nerve Strain

You never know where a nerve strain will be reflected. It may be far from the local seat of the trouble, but it will surely make itself felt, probably in the shape of the system, or even the least resistance. It follows then that if you have local symptoms of eyestrain you would be acting wisely in having a careful examination made to ascertain if there is trouble existing in the eye structure.

If the eyestrain is removed you will probably find symptoms disappearing that you never dreamed were in any way connected with your eye trouble.

I will examine your eyes and tell you frankly the condition I find. You may be sure of that.

The fire alarm, Sunday at one o'clock, brought the brigade to a shak near the Great West hotel, occupied by "Texas." The apparatus was out in three minutes and water turned on in eight minutes. The shak was saved.

Why a person should pay nearly as much for a pastebord camera as for a camera made of good stout wood, and finished in the best way is hard to see. Just drop in and see our new cameras for \$1.50, \$2.50 and \$3.00. last, they will surprise you. Parker's, drugs and stationery.

George F. Root's sale of Percherons and Durhams at the Spruce Bluff farm on Wednesday was attended by farmers from all over the province, over \$11,000 being realized by the sale. One mare brought \$1,000, a stallion \$1,500, a team of Percheron mares \$1,775, and yearlings from \$575 down. A good deal of the stock will remain in this district.

The Aik Free Press has what it purports to be a correspondence from Red Deer, stating "there are some twenty-seven store buildings and forty houses unoccupied" here. The liar who penned these lines bears the ear mark of a Lacombe resident or a dangerous lunatic. It is up to the Board of Trade and Council to investigate who is thus knocking our town, and if found, to punish the party to the full extent of the law.
